

## Technical requirements for the setup of HBBA 3600/4000/4200/4500 Offshore

Required electrical power	18 KW without industrial vacuum system 40 KW with industrial vacuum system
Required electrical connection	5 x 16 mm <sup>2</sup> with 63 A Fuse without rcd
Required air quantity	Ca. 30 m <sup>3</sup> /h only for drilling

### Adjustability of the first support bracket

Floor:	
vertical	+/- 30 mm
horizontal	+/- 30 mm

**Setting up area frame/first support** 10,5 m x 6 m thickness min. 300mm

**Cabin height** 5,10 m

**Power input** 3~ N/PE 400/230V/ 50-60Hz

**Air supply** 10 bar

To ensure a trouble-free installation of the HBBA, the following equipment has to be available at the site at all times: Ceiling crane (min. 10t) for the offshore parts, forklift (min. 1,5t) and a hydraulic lift (working height min. 5m).
